

NEW!

# Signature Z6

CD/DVD PRINTER

**Signature Z6** is Primera's newest and most advanced CD/DVD color printer. As a sixth-generation direct-to-disc printer, it offers a wide range of industry-leading features and benefits, including:

- 4800 DPI print resolution
- Six-color Photo Mode for the most incredible, photo realistic direct-to-disc printing
- Large ink cartridges for low cost per disc and uninterrupted printing runs

Whether you duplicate discs for audio, music, software, video or data, Signature Z6 delivers all the performance you need for high-volume, high-quality disc printing – at a price that is surprisingly affordable. When reliability, speed and the highest-quality photo-realistic output are required, Signature Z6 is your best CD/DVD printing solution!

TECHNOLOGY, INC.

# Signature Z6

CD/DVD PRINTER

For the most remarkable print quality, speed and performance, look to the new Signature Z6 CD/DVD Printer. With 4800 dpi print resolution and six-color printing, all of your discs will have the sharpest text, graphics and photos. Colors are bright, vibrant and more photo-realistic than ever before. Your discs will look highly professional, creating a positive, lasting impression.

## PRINT WITH SIX-COLORS INSTEAD OF JUST FOUR

By adding light cyan and light magenta to CMYK, you get absolutely stunning results. Faces look more natural. Shades and gradations are more gradual and smooth. Colors are brighter and even more vibrant. The combination of six-color printing with 4800 dpi resolution delivers simply the best direct-to-disc printing available. You have to see it to believe it!

## ADVANCED INKS AND SOFTWARE

Signature Z6 uses a special ink formulation that dries faster and is more permanent on printable-surface discs than other direct-to-disc printers. It also includes our PrimaColor™ and new Z-Color™ Color Matching Systems for the most accurate and precise control over the colors you create and print. There's even our exclusive, patent-pending ink level warning system that knows precisely how much ink remains based upon the actual graphic images and layout you've designed.

You can use printable-surface CD-Rs and DVD±Rs from virtually all major media manufacturers. Or, use our Signature-branded Tuff-Coat™ media. It has a unique coating that's highly water, scratch and smudge resistant.

## OPTIONAL HANDS-FREE DISC BURNING AND PRINTING

For fully automated disc production, be sure to check out the ComposerMAX Optical Disc Duplicator. Signature Z6 interfaces perfectly to this high-capacity, automated disc duplication systems.

## TECHNICAL SPECIFICATIONS

<b>Models:</b>	Signature Z6 CD/DVD Printer
<b>Print Method</b>	Inkjet
