

This material is no longer available, please go to <http://primeralabel.eu/europe/supplies.html> to find different materials for our label printers.

Learn more about Primera's label materials:

To produce exceptional product labels for all kinds of applications you not only need advanced print technology as integrated in Primera's Color Label printers but you also need high-quality material.

To guarantee the best results we recommend TuffCoat high and semi-gloss paper label material, as well as the exclusive TuffCoat Extreme™ white and clear polyester and white BOPP material.
